From: Alain BOUCHER

Item(s): 0 681 18

Date: 27/06/2017

Description: Céliane induction charger

Page(s) cat: 658 FR 2017/18

The Céliane 068118 wireless charger is compatible with the new 2 USB devices manufactured from:

USB charger	Date of manufacture	Availability date Verneuil
067462	Week 36 -2016	Week 37 -2016
067106	Week 23-2017	Week 24 -2017

Compatible chargers can be identified by the presence of 4 holes on the front of the mechanism (see picture below):

The old 1500 mA chargers are not compatible (end of production September 2016), the 2400 mA chargers ref 067462 are all compatible.

The recent change in the 2P + T-2 USB charger 067106 exposes us to incompatibility when installing the Céliane 068118 wireless charger cover if the charger was manufactured before June 2017 week 24.

NB: the manual contains this visual with the 4 holes in drawing.
